

Stratford Village

GENERAL FLYER

A second flyer will be posted at least one day before starting work on your building

Antis Roofing & Waterproofing will start to facilitate **Maintenance & Cleaning** at your community starting on **Tuesday January 3rd, 2023**, weather permitting. Estimated time of completion for the project is around **3-5 days**.

Antis will make every attempt to respect homeowner privacy and property. We will notify individual homeowners of any items that present a problem during the project. The following points will help in the facilitation of a clean and less disruptive project:

- **If you have a driveway and/or patio, please remove, or cover outdoor items (i.e., vehicles, umbrellas, patio furniture, etc.) that may get dirty and/or damaged from fallen roofing debris.**
- **Please keep gates unlocked for our Field Team to clean any fallen roofing debris. If gates are locked during the process, fallen roofing debris removal will be homeowner responsibility. If you do not have gated areas or gates, please ignore this request.**
- **Close all doors and windows.**
- **All common areas used will be left broom clean at the end of each workday.**
- **Final clean up at completion of job**

IT IS NOT NECESSARY FOR YOU TO BE HOME.

There will be foot traffic on the roofs and noise at each building during the project, between the hours of 8:00 AM and 5:00 PM, Monday through Friday. Antis will not be working holidays.

If you have any questions regarding this project, please contact Antis Customer Service. Please contact your property manager if you have any issues/concerns about having this approved project facilitated.

Thank you in advance for your cooperation.
